Indicators from Table 1 (lecturer only)

Year	Take-up (%)	Spending (€ m)	Spending / €380 m (%)	€ per registered	Share of spending (%)				€ per purchase	
					Hw/sw	Books	Cinema	Courses	Hw/sw	Courses
2016-17	86.3	255.0	67	405	78	15	1	7	367	212
2017-18	87.5	348.5	92	540	72	19	2	7	386	215
2018-19	90.7	313.5	82	479	67	24	3	6	399	192
2019-20	91.9	345.3	91	525	71	23	2	5	407	186
2020-21	92.9	327.0	86	503	74	23	0	3	407	184
2021-22	94.0	322.1	85	488	69	26	1	4	452	187
2022-23	93.7	331.6	87	499	64	29	3	5	449	186
2023-24	92.1	376.0	99	537	58	30	3	9	442	252

- Take-up rises from 86% to 92–94%. Spending never reaches the €380 m allocated, except almost in 2023-24
- Hardware and software take 58–78% of the money; **training courses only 3–9%**: the category closest to the stated goal is the smallest
- €/registered above €500 (2017-18, 2019-20, 2020-21, 2023-24): possible because the bonus can be spent in the following year (carry-over), so a year's spending mixes two cohorts of bonuses
- 2020-21: cinema and courses collapse (COVID), hardware stable (distance teaching)
- None of these is an outcome: they describe use of money, not better teaching
